

**ANDREW B. COMER, P.E.**

**PROFESSIONAL CREDENTIALS:** Registered Professional Engineer . . . . . Ohio Reg. No. E-70215

**AFFILIATIONS:** Institute of Transportation Engineers

**EDUCATION:** University of Toledo . . . . . B.S. Civil Engineering, 1999

**RECORD OF EMPLOYMENT:**

2006	TMS Engineers, Inc., Traffic Engineer
2004 - 2006	Northeast Ohio Areawide Coordinating Agency, Planning Engineer II
1999 - 2004	Traff-Pro Consultants, Inc., Traffic Engineer & Traffic Surveys Manager

## **PROFESSIONAL EXPERIENCE:**

With NOACA, Andrew performed and reviewed various types of traffic studies including traffic control warrant studies and accident analysis. He provided technical assistance and oversight for planning activities in conjunction with state and local agencies. He also performed traffic capacity and operational analysis of intersections and corridors. He participated in Major Investment Studies for large scale projects and he participated in the "Transportation for Livable Communities" screening and selection process.

With Traff-Pro Consultants, Inc. He was responsible for performing and reviewing various types of traffic studies for a variety of clients, both private and public. He performed traffic control warrant studies, sight distance surveys, and accident analyses. He modified and determined optimized signal timings to promote progression along signal systems. He also performed traffic capacity and operational analysis of intersections and corridors.

As the Traffic Counter Manager for Traff-Pro, Andrew assigned and coordinated all traffic counts as needed by projects. He supervised and oversaw the staff of traffic count technicians. He was responsible for recruiting and conducting interviews with perspective technician applicants.
